MEASURING WHEELS **KESONITE WHEELS™**

KESONITE™ WHEELS

MADE OF KESONITE™

There are inherent vulnerabilities of die cast and metal spoked wheels. Everyday use requires that a wheel handle some rough treatment without dents and without bending.

Not all wheels are up to this. Our solution? Invent a new material. Kesonite is a strong, dense metal/resin composite. It holds its shape better than metal and it's stronger than a spoked or die cast wheel. The weight of the wheel makes it easier to use and more accurate on rough terrain.

Based on the design of the RR Series Large, a model with over 20 years of continuous improvement, including wheel design, material, and safety reflector!

EASY-READ, MAGNIFIED COUNTER

5-digit, easy-read, magnified counter measures 9,999 feet, 11 inches (9,999.9 ft on engineers' model and 9,999.9 meters on metric).

3-PC. PISTOL GRIP HANDLE

- Quick snap cam locks
- Telescopes down to 23 inches
- Easy transport
- Compact storage

Limited lifetime warranty.

MODEL	UPC 052837	UNITS	DIA.	CIRC.	SPECIAL FEATURE
RR30	026425	ft., in.	11-1/2 in.	3 ft.	Increased strength & weight
